Why Contec?

Reasons to choose Contec for your critical cleaning needs

Contec's products bring the cleanliness of controlled environments to the aerospace industry. Surface cleaning and preparation prior to painting or before applying sealants, in bonding applications or cleaning prior to applying decals are just a few of the many tasks performed with Contec products. Our full range of wipes offers reliability and consistency for error-free surface preparation, assuring you of a high-quality, clean surface.

INNOVATION

As a long established leader in custom designed products for specific applications, many of our products were developed at customer requests. We take pride in developing innovative products that not only deliver outstanding performance but are cost-effective for our customers. We were the first to introduce presaturated wipes to critical environments allowing customers to greatly reduce their VOC emissions. We treat new applications and customer problems as a challenge to our Research and Development capabilities.

TECHNICAL SUPPORT

Our success would not be possible without our technical support team. Contec has the largest, most experienced sales team in the critical environment industry and a technical support team with over 100 years in critical environment solutions. Contec industry experts provide unmatched technical training and customer seminars. With sales representatives all over the world, as well as distribution centers in the United States, Asia and Europe, our customers benefit from personalized service and fast, efficient sample and order turn around.

QUALITY

Contec manufacturing facilities are ISO 9001:2015 registered. As a vertically integrated manufacturer, Contec controls more of the manufacturing process than any of our competitors. We invite you to come visit our manufacturing facilities and find out for yourself the quality built into the products we make.

BROAD CAPABILITY AND PRODUCT LINE

Our extensive industrial product line includes knitted wipes, woven and nonwoven wipes, presaturated wipes and mopping systems for industrial environments. In fact, we have the widest variety of presaturated wipes and mopping systems in the industry. Still not convinced? Contact your sales representative and ask for a product sample. Our Samples Department takes care of both standard and custom product orders.

So "Why Contec?" Why not?

SOLVENT WIPING SYSTEMS

Presaturated Nonwovens

A nonwoven fabric is generally considered to be any fabric that is not made by weaving or knitting. Nonwoven fabrics can be made from polyester, wood pulp cellulose, rayon or various blends of these fabrics. Each fiber type has a particular strength or characteristic that makes it suitable for various environments and applications. Polyester provides durability, chemical compatibility and relative cleanliness. Cellulose and rayon provide sorbency. The principle advantage of nonwoven wipes is that they tend to offer greater economy than most knit or woven fabrics. Contec offers many nonwoven fabric options, including meltblown polypropylene, blends of polyester and cellulose, 100% polyester, aerospace approved rayon, and others. Our presaturated nonwoven – wipes are available in various sizes and configurations – rolls, flat stacked, quarterfolded, bulk packaged. If you are looking for a specific nonwoven wipe, just ask your sales rep.

Specifications

SATWIPES Solvent Wiping System conforms to the following aerospace specifications:

AMS 3819

Silorsky Specification:

SS9170/681

Pratt & Whitney Specifications:

PMC 9094

PMC 9008

PMC 1914

PMC 9016

SATWIPES® Solvent Wiping System

Presaturated nonwoven wipes in a canister

Contec's Aerospace SATWIPES Solvent Wiping System consists of rayon/nonwoven presaturated wipes dispensed from a center-pull roll in a reusable canister. A variety of canisters and solvents are available. All canisters, pouches and lids have been proven to withstand contact with the harshest of solvents. To preserve product integrity, SATWIPES rolls are packaged in specially designed foil pouches, which are opened and loaded into sturdy SATWIPES canisters. Wipes can be saturated with many different solvents and blends. Various solvents are available including IPA, IPA/DI water blends, acetone, MEK, MPK, and naphtha.

SATWIPES are tailored to specific tasks in your facility. This ensures that the right size wipe with the correct amount of solvent is used each time. Durable reusable canister with self-closing lid reduces waste, solvent use and VOCs.

Meets current revision of specification AMS3819.

Features	Benefits
Solvent specific color-coded labeling	Easy solvent identification
Perforated rolls with self-closing lids	Lids close to prevent wipes from drying out
Reusable canister	Economical and solvent compatible
Various solvent blends	Meet different facility needs
Rayon/nonwoven fabric	Meets aerospace specification AMS3819

Part No.	Solvent	Wipe Size	Packaging	Canister Part No.*
SW420045	Acetone, 900mL	6" x 9" (15x23cm)	100 wipes/roll; 18 rolls/case	SWCN0092

* 10 canisters/case - sold separately

PROSAT® Presaturated Wipes

Meltblown polypropylene wipes

Manufactured from meltblown polypropylene, these PROSAT® presaturated wipes offer exceptional cleanliness. They are low in nonvolatile residues as well as particles and fibers. Saturated with a blend of IPA and deionized water, these wipes are an excellent choice for general surface cleaning where fast drying times are desired. The use of presaturated wipes provides maximum process control. Presaturated wipes reduce VOC emissions and solvent use up to 35% compared to spraying. PROSAT wipes are provided in convenient and easy to use peel and reseal pouches.

Features	Benefits
Presaturated with isopropyl alcohol and water	Excellent choice when fast drying time is important
Low in nonvolatile residues, particles and fibers	Ideal for multiple applications
Low VOCs	Reduces VOC emissions compared to spraying

Part No.	Solvent	Wipe Size	Packaging
PS-911	70% IPA/30% DI water	9" x 11" (23x28cm)	30 wipes/pouch; 15 pouches/case
PSPC0002	85% IPA/15% DI water	6" x 9" (15x23cm)	60 wipes/pouch; 18 pouches/case
PSQT0002	100% IPA	9" x 9" (23x23cm)	50 wipes/pouch; 12 pouches/case
PSQT1295	100% Acetone	12" x 12" (30.5x30.5cm)	10 wipes/pouch; 12 pouches/case
Additional SATWIPEs Parts			
SAT-C3-8515	85% IPA/15% DI water	6" x 9" (15x23cm)	100 wipes/roll; 12 rolls/case + 1 canister
SWNW0020*	70% IPA/30% DI water	6" x 9" (15x23cm)	100 wipes/roll; 18 rolls/case
SWPP0003*	70% IPA/30% DI water	6" x 9" (15x23cm)	150 wipes/roll; 18 rolls/case

* Canisters sold separately. Ask your sales representative for details.

Contec offers presaturated knitted wipes in a variety of sizes and packout configurations using a variety of different solvents. The wipe edges are sealed in a proprietary process to prevent linting/fibers during use.

PROSAT® & SATWIPEs® Solvent Wiping Systems

Presaturated wipes designed for cleaning and surface preparation

Originally developed by Contec as a safer, more efficient way to utilize solvents and wipes, PROSAT® and SATWIPEs® saturated wipes are a convenient solution for many critical cleaning applications. For generations, hand-cleaning processes utilized rags or shop towels and loose solvent containers, i.e. squeeze bottles, spray bottles, pails and plunger cans. Quite often, hazardous solvents are dispensed from gallon cans or drums directly onto rags. Contec's PROSAT and SATWIPEs Solvent Wiping Systems are the better alternative.

Many industries are being required by governmental regulatory agencies to reduce the amount of solvents that evaporate and are released into the atmosphere during manufacturing and assembly. Hand wiping is one of several major ways that solvent emissions are released. Presaturated wipes are an effective way to reduce solvent emissions during wiping tasks while increasing operator safety and improving the quality of the finished product.

The biggest difference between Contec's Solvent Wiping Systems and traditional hand-wiping is solvent control and wiping consistency. Wipes are evenly saturated; the same amount of solvent is released every time an operator wipes a part. Additionally, our wiping material substrates are disposable first-quality nonwoven and knitted fabrics, not rags or shop towels.

Contec's PROSAT Wipes and SATWIPEs Solvent Wiping System consist of presaturated wipes dispensed from resealable pouches or durable, reusable canisters. Custom engineered to meet your needs, a variety of fabric substrates, pouches, and canisters are available. Wipes of various sizes can be saturated with your choice of solvents and blends. Ideal for surface preparation prior to paint, sealant or adhesive bonding applications, as well as composite surface wiping, Contec's presaturated wipes are the ultimate solvent wiping tool.

KNITTED WIPES

Knitted Polyester Wipes

Durable, abrasion-resistant knitted polyester wipes from Contec® are laundered and packaged in our cleanroom laundry facility. These wipes are available vacuum sealed in stacks or bulk packaging. Many can be manufactured in custom sizes and shapes. Contec wipes are excellent for use on rough surfaces and for applications involving solvents, such as composite solvent wiping and when an exceptionally clean wipe is needed for critical cleaning applications.

Our knitted wipes are also available saturated with IPA and other solvents as PROSAT® Presaturated Wipes; please call your sales representative for more information.

Quiltec® I Wipes

2-ply quilted polyester wipes

Quiltec® I Wipes offer the highest sorptive capacity of any sealed edge wipe available. It is manufactured using two layers of knitted polyester fabric that are laminated together to form a stronger, more absorbent wipe. Additional fluid is captured within the quilted pockets between the fabric layers, increasing the sorbent capacity. Quiltec I has more than twice the absorbent capacity of a single layer wipe.

Meets current revision of specification AMS3819.

Part No.	Description	Size	Packaging
QT1-99	Quiltec wipe	9" x 9" (23x23cm)	100 wipes/bag; 10 bags/case
QT1-99B	Quiltec wipe, bulk	9" x 9" (23x23cm)	150 wipes/bag; 6 bags/case
QT1-1212	Quiltec wipe	12" x 12" (30.5x30.5cm)	100 wipes/bag; 5 bags/case
QT1-1212B/100	Quiltec wipe, bulk	12" x 12" (30.5x30.5cm)	100 wipes/bag; 5 bags/case

Polynit Wipes

100% textured polyester no-run interlock knit wipe

Polynit Wipes are made of 100% knitted textured polyester with heat sealed edges or knife cut edges for a very soft wipe. The soft edge is ideal for use on surfaces which are vulnerable to scratching. The heat sealed edge prevents release of fibers. Polyester wipes are chemical resistant and exceptionally low in particles and fibers. An interlock knit creates a durable fabric, the addition of a periodic additional stitch of a no-run interlock knit prevents the fabric unraveling creating an even more durable fabric with strong edges.

Part No.	Description	Size	Packaging
PN-99B	Polynit wipe, bulk	9" x 9" (23x23cm)	300 wipes/bag; 4 bags/case
PN-1212B	Polynit wipe, bulk	12" x 12" (30.5x30.5cm)	150 wipes/bag; 4 bags/case
PNHS-99B	Polynit wipe, bulk	9" x 9" (23x23cm)	300 wipes/bag; 4 bags/case
PNHS-1212B	Polynit wipe, bulk	12" x 12" (30.5x30.5cm)	75 wipes/bag; 10 bags/case

Polywipe-C Wipes

Lightweight 100% polyester interlock knit wipe

Polywipe-C Wipes are made from a light weight 100% knitted polyester that is knife cut to create a soft edge. The soft edge is ideal for use on surfaces which are vulnerable to scratching. The wipe is chemical resistant and exceptionally low in particles and extractable residue making it ideal for critical cleaning.

Meets current revision of specification AMS3819.

Part No.	Description	Size	Packaging
PC-99	Polywipe-C wipe	9" x 9" (23x23cm)	150 wipes/bag; 12 bags/case
PC-99B	Polywipe-C wipe, bulk	9" x 9" (23x23cm)	300 wipes/bag; 5 bags/case
PC-99B/150	Polywipe-C wipe, bulk	9" x 9" (23x23cm)	150 wipes/bag; 10 bags/case
PC-1212	Polywipe-C wipe	12" x 12" (30.5x30.5cm)	75 wipers/bag, 10 bags/case

Sontara® AC™ Aircraft Wipes

General purpose, low-lint wipes

Sontara® AC™ Aircraft Wipes leave surfaces clean because they're extremely low-lint. They are specially engineered to resist snagging on metal parts and corners. That's why it's superior to paper wipes, which snag and tear—leaving lint behind. Sontara AC also outperforms cheesecloth, which can leave strings behind when it snags on a rivet. *Meets current revision of specification AMS3819.*

Part No.	Description	Size	Packaging
AC9165	Sontara AC Aircraft Wipes	9" x 16.5" (23x42cm)	100 wipes/box; 8 boxes/case
AC12165	Sontara AC Aircraft Wipes	12" x 16.5" (30.5x42cm)	250 wipes/box; 1 box/case
AC1212	Sontara AC Aircraft Wipes	12" x 12" (30.5x30.5cm)	100 wipes/pack; 10 pack/box
AC1213	Sontara AC Aircraft Wipes	12" x 13" (30.5x33cm)	50 wipes/pack; 10 pack/box

Part No.	Description	Size	Packaging
AW99	50% Wood pulp/50% Poly blend	9" x 9" (23x23cm)	3,000 flat wipes
RZ1217	100% Rayon	12" x 17" (30.5x43cm)	50 wipes/pack; 12 wipes/case

Sontara® Multipurpose Shop Towel

Durable, absorbent, low-lint towel

Sontara® Multipurpose Shop Towels offer strength, absorbency and versatility with exceptional performance. The wipes are lightly creped for a soft feel. They are available quarter folded, and in single or double pop-up dispenser boxes.

Part #	Description	Size	Packaging
MP1213BG	Sontara Multipurpose Shop Towels blue, quarter folded	12" x 13" (30.5x33cm)	50 wipes/bag; 18 bags/case
MP1213WT	Sontara Multipurpose Shop Towels, white, quarter folded	12" x 13" (30.5x33cm)	50 wipes/bag; 12 bags/case
MP12165BG	Sontara Multipurpose Shop Towels, blue, double pop-up box	12" x 16.5" (30.5x42cm)	125 wipes/box; 2 boxes/case

TuffStuff™ Wipes

Polyester/cellulose critical task wipes

TuffStuff™ Wipes are high quality critical task wipes. Available in light, medium and heavy duty, these wipes are solvent resistant and maintain their strength even when wet. TuffStuff wipes offer exceptional durability and cleanliness. TuffStuff Wipes are available in multiple sizes, weights, and packaging configurations to meet various customer needs.

The expanded range includes TuffSat, consisting of heavy-duty dry wipes, quarter folded in a tub that can be saturated with cleaning solution. This versatile option allows wipes to be customized with the correct cleaning solution for a specific environment.

Part No.	Description	Size	Packaging
TSWC0917	TuffStuff™ Heavy Duty Wipes Pop-up dispenser box	9" x 16.5" (23x42cm)	100 wipes/box; 8 boxes/case
TSGA1213B	TuffStuff™ Wipes, blue Quarter folded	12" x 13" (30.5x33cm)	50 wipes/bag; 20 bags/case
TSWC1214	TuffStuff™ Heavy Duty Wipes Roll-in dispenser box	12" x 13" (30.5x33cm)	500 wipes/roll; 1 roll/dispenser case
TSWC1217	TuffStuff™ Heavy Duty Wipes Double pop-up dispenser box	12" x 16.5" (30.5x42cm)	125 wipes/box; 2 boxes/case
TSWT1217	TuffStuff™ Heavy Duty Wipes Quarter folded	12" x 17" (30.5x43cm)	50 wipes/bag; 18 bags/case
TSCN0001	TuffSat™ Dispenser Tub	-	4 each/case

Nonwoven Wipes

Nonwoven fabrics are made of fibers that are not "held together" in a traditional sense, i.e. knitted or woven. They are constructed by mechanical entangling or bonding the fibers. Nonwoven fabrics can be made from polyester, cellulose, rayon, nylon, aramids and other fibers. Each fiber type has a particular strength or characteristic that makes it suitable for various environments and applications.

For example, polyester provides durability, chemical compatibility and relative cleanliness; while cellulose and rayon provide superior sorbency. Blends of these fibers can offer synergistic functions, such as fabrics that offer good durability, sorbency and liquid release. Contec offers several nonwovens fabrics for various cleaning applications.

MICROFIBER WIPES

Microfiber Wipes

Microfiber products are made using the latest technology. The microfibers used are triangular in shape instead of round and are 300 times smaller than cotton fibers. These microfibers act like thousands of tiny squeegees that easily remove residues and dirt on a surface, without solvent. The result is incredible cleaning that uses far less pressure and effort than conventional products. They are excellent for removal and retention of particles and fibers, and applications involving solvents such as wiping composite surfaces. Our microfiber products are launderable.

Thunderbuff™
Silicone-free nylon/polyester microfiber wipe

Thunderbuff™ polishing cloths are silicone-free, terry style woven wipes made of nylon/polyester microfiber. The keys to the incredible performance of this microfiber are the size, shape, and composition of the fibers used to make the threads of the cloth. Thunderbuff Wipes effortlessly remove both oil-based and water-based residues and dirt from surfaces.

Part No.	Description	Size	Packaging
LWTB0001	Thunderbuff microfiber wipes, green	16" x 16" (41x41cm)	10 wipes/bag; 4 bags/case
LWTB0001/100	Thunderbuff microfiber wipes, green, bulk	16" x 16" (41x41cm)	100 wipes/bag; 1 bag/case
LWTB0006	Thunderbuff microfiber wipes, white	12" x 12" (30.5x30.5cm)	10 wipes/bag; 6 bags/case
LWTB0006/100	Thunderbuff microfiber wipes, white, bulk	12" x 12" (30.5x30.5cm)	100 wipes/bag; 1 bag/case

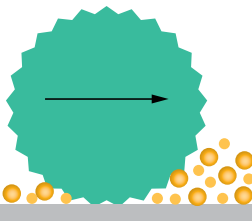

Anticon® Gold Sorb™
Polyester microfiber super low-linting wipes

Anticon® Gold Sorb™ is a unique wipe which combines the performance of a microfiber yarn with that of a polyester yarn to create a wipe with superior wiping and sorptive characteristics. The proprietary sealed edges of these wipes allow the use of 100% of the wipe for cleaning without the worry of harming delicate surfaces. Anticon Gold Sorb wipes have no abrasive borders, making them particularly suitable for cleaning sensitive components. These wipes are cleanroom laundered.

Part No.	Description	Size	Packaging
492238-958	Anticon Gold Sorb wipes, sealed edge polyester	12" x 12" (30.5x30.5cm)	100 wipes/bag; 4 bags/case
492238-959	Anticon Gold Sorb wipes, sealed edge polyester, bulk	12" x 12" (30.5x30.5cm)	100 wipes/bag; 4 bags/case

Microfiber

Cotton

The wedge shaped filaments of microfiber easily trap particles inside the fiber, unlike cotton fibers that push dirt and dust from one point to another.

Tack Cloths

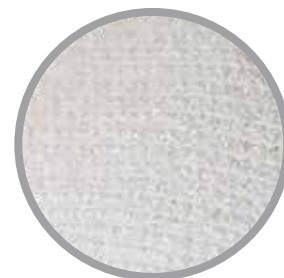

Some tack cloths contain volatile organic compounds (VOCs), water, oils, thinners and other inferior materials. Those cloths can be inconsistent in tack and may even stiffen or dry out as water, thin oils and waxes evaporate. Solvents, oils and waxes can leave invisible residues that may react with a finish causing marring and other coating defects. VOCs may present a regulatory burden, as well as a potential hazard to health and safety. Tack cloths from Contec are VOC-free.

Polyester Tack Cloth

Knitted, sealed edge polyester tack cloth

Developed with knitted selvage edges and heat sealed cuts to reduce snags and fibers — only our tack cloth is manufactured using a high temperature and pressure tack 'thermoset' impregnation process. This process significantly reduces invisible residue buildup that may react with other finishing materials to cause coating defects such as marring and streaking. Ideal for industrial tack applications. Custom sizes are available.

Part No.	Description	Size	Packaging
BS20CS	Polyester Tack Cloth, smooth	9" x 18" (23x46cm)	100 cloths/bag; 5 bags/case
BS80CB-12	Polyester Tack Cloth, textured	9" x 12" (23x30.5cm)	100 cloths/bag; 4 bags/case
BS80-16	Polyester Tack Cloth, textured	9" x 16" (23x41cm)	100 cloths/bag; 4 bags/case
BS80CB	Polyester Tack Cloth, textured	9" x 18" (23x46cm)	100 cloths/bag; 4 bags/case

20 Cloth

80 Cloth

Tax-Fre® Tack Cloth

Nonwoven tack cloth

The Tax-Fre® nonwoven tack cloth has been specifically engineered to provide excellent contamination removal from surfaces without sticking, grabbing, or transferring tack adhesive to the surface. A unique polymer adhesive gives the Tax-Fre cloth a soft, dry feeling, free of tackiness or stiffness.

Part No.	Description	Size	Packaging
TAX-FRE	Tax-Fre Tack Cloth	10" x 18" (25x46cm)	100 wipes/bag; 4 bags/case

SPECIALTY PRODUCTS

SATWIPE® Hand Scrubber Towels

Hand & general purpose cleaning wipes

SATWIPE® Hand Scrubber Towels are a superior value hand cleaner/towel combination. The powerful solution does not contain any solvents which dry out your skin. Yet, it very effectively dissolves grease, grime, oil, lubricants, paints, tar, inks and more. Soils are lifted from your hands and captured in the heavy-duty towel. The solution is virtually VOC free making it very environmentally friendly.

SATWIPE Hand Scrubber Towels feature a dual-textured towel with green scrubber on one side for deeper, faster cleaning. Made from polypropylene material, the towels stay moist for hours allowing for multiple uses.

SATWIPE Hand Scrubber Towels are convenient and economical to use. The compact canister saves space when compared to most competitive products. Each canister has a handy, resealable dispensing top. The hand cleaner/towel combination eliminates the need for paper towels, shop rags or water. Best on grease, paints, tar, oils and lubricants, inks and more.

Part No.	Description	Size	Packaging
SWHST0004	SATWIPE Meltblown Polypropylene Wipes, half folded Preloaded Canisters	9" x 12" (23x30.5cm)	72 wipes/roll; 6 rolls/case
SWHST0004REFILL	SATWIPE Meltblown Polypropylene Wipes, half folded, Refill Rolls	9" x 12" (23x30.5cm)	72 wipes/roll; 12 rolls/case

Knitted Polyester Gloves

Laundered gloves

Knitted Polyester Gloves are laundered in a controlled environment. Gloves are full-fingered 100% knitted polyester and will not shrink. The construction of the silicone-free glove allows the wearer to maintain tactile sensitivity and dexterity. Features an elasticized wristband for a secure fit and gloves are color-coded by size for easy identification.

Part No.	Description	Size	Packaging
LGAU0199	2" Cuff Purple Band, White Glove	XXSmall	12 gloves/bag; 12 bags/case
LGAU0200	2" Cuff Yellow Band, White Glove	XSmall	12 gloves/bag; 12 bags/case
LGAU0201	2" Cuff Blue Band, White Glove	Small	12 gloves/bag; 12 bags/case
LGAU0202	2" Cuff Green Band, White Glove	Medium	12 gloves/bag; 12 bags/case
LGAU0203	2" Cuff White Band, White Glove	Large	12 gloves/bag; 12 bags/case

Mopping Systems

Mops are an ideal way to clean floors as well as clean spills from solvents, oils, and waxes. Mops are available in a variety of ways to best fit any application. From string mops to disposable microfiber, mopping solutions are available for any cleaning challenge.

Edgeless® Floor Mop

Polyester string mop

Edgeless® Mops are made from strong, durable knitted polyester, eliminating contamination from breakage and deterioration common with cotton and rayon string mops. Patented Textured and Long Textured Edgeless Mops feature unique ribbed, twisted strands that are more sorbent than traditional string mops and have a textured head band that is ideal when additional abrasion resistance is required.

Part No.	Description	Size	Packaging
EL-MOP	Edgeless Floor Mop	-	1 mop/bag; 20 bags/case
EL-MOPT	Edgeless Floor Mop textured	-	1 mop/bag; 20 bags/case
2646F	QuickConnect Edgeless Mop Frame	6" x 7" (15x18cm)	1/case
2725E	QuickConnect Stainless Steel handle One piece	59" (150cm)	1/case
2720	Polypropylene Double Bucket System Two buckets (red, blue), cart and wringer	6.5 gallon (25L)	1/case

PREMIRA® Mopping System

Disposable microfiber mop pads

Premira® Disposable Microfiber Pads provide superior dirt and debris removal compared to reusable textiles like cotton or laundered microfiber mops. Premira pads eliminate cross-contamination risks with a new pad for each use. Premira disposable microfiber pads are 100% synthetic and bleach-safe.

Part No.	Description	Size	Packaging
SPMM0001	PREMIRA Microfiber Pads	5" x 19" (14x48cm)	20/bundle; 12 bundles/case
SPMH8005	Mop Frame, Blue	17.5" (44.5cm)	6/case
SPMH8002	Handle, aluminum	58" (147cm)	1/case

Contec® cleaning and surface preparation products are available throughout the world. Sales offices are conveniently located in North America, Europe, Asia and South America. Please visit www.contecinc.com to locate a sales representative in your region.
