

Premira® II Tight Quarters Mop

Disposable microfiber sized for tighter spaces allows for better cleaning and uniform disinfection

Made from our advanced microfiber material, Premira® II Tight Quarters Mop pads are conveniently sized for hard to clean, confined spaces. The 5" x 11.25" pads, when paired with ZeroGravity® Tight Quarters mop frame, allows for easy, efficient and ergonomic cleaning and disinfecting. Designed to navigate curves and corners found in patient bathrooms, labs, employee locker rooms, showers and other confined spaces, Premira II Tight Quarters Mop offers maximum cleaning power with a minimal footprint.

ZeroGravity Tight Quarters Mop Frame

Consistent cleaning in small spaces

Paired with our Premira® Microfiber Tight Quarters pads, this 100% recyclable polypropylene Tight Quarters frame helps to eliminate the risk of contaminated nasty looking hardware. The frame design ensures that the mop pad is applied to the floor with consistent pressure for even cleaning and uniform application of disinfectant, which allows dwell times to be properly achieved. Once the Tight Quarters frame has been used enough to start showing signs of wear and tear, simply toss the used frame into the recycling bin and grab a new one.

Features

Compatible with common disinfectants like quats, peroxides and bleaches

Eliminates risk of contamination from laundries, lint, organic material, etc

New pad each time simplifies quality control and inventory issues along with reducing cross-contamination risk

Reduces strain and improves surface coverage when cleaning or disinfecting areas in smaller, tighter spaces that require mopping
