

Premira® Microfiber Floor Pads

Single-use pads for maximum cleaning and uniform chemical application

100% synthetic Premira® Microfiber Floor Pads provide superior dirt and debris removal compared to reusable textiles like cotton or laundered microfiber. Premira disposable microfiber improves the look and cleanliness of your facility while also reducing cross-contamination risks with a new pad for each use. These patented mops are the all-around best solution for cleaning areas of your facility where clean counts most.

US Patent Nos. 8,809,213; D67,513; 9,693,668; and 10,010,233.

MOP FRAME AND HANDLE OPTIONS

Hardware to maximize cleaning ability
Contec Professional offers a variety of mop hardware options for the Premira Microfiber Floor Pad. The ZeroGravity Mop shown here features a lightweight, one-piece backer that makes cleaning more efficient than traditional mop frames. Its innovative curved design allows for uniform application of cleaning chemicals and encourages correct mopping technique, flattening easily during proper s-curve use. The ZeroGravity mopping system will help improve cleaning performance when used with the Premira Microfiber Floor Pad.

Features	
Decreases cross-contamination risk with a new pad each use	
Broad chemical compatibility, improved disinfectant efficacy	
Consistently better cleaning vs. launderables	
Optimizes staff efficiency	
Simplified logistics, lean storage footprint
